He was commissioned by United Airlines to create memorial artwork for the 9/11 tragedy and a piece for the Boston Red Sox to commemorate their 2004 World Series victory. Always thought-provoking, Gerald Johnson's contribution is from his newest series of work, the "Baker Park Suite II." An original mixed media collage (20 x 35 x 1.5); the image of the "swinging bridge" taken during a snowstorm suggests an alternative visual point of view and asks us to re-think the way we are accustomed to seeing our world.
